Luke Hawkins

Profile

Eager developer obsessed with software design, systems, and web infrastructure.

Have taken an interest in app development after my internship at Xero, cannot wait to work in another agile team.

Education

Graduate Student

University of Melbourne
Master of Engineering in Software
From: 2021 – current / penultimate

Bachelor of Science in Computing and Software Systems
From: 2018 – 2020
Final WAM: 79

Melbourne National Merit Scholarship
ATAR: 99.5

Work Experience

Summer Intern at Xero 2019 – 2 week workshops, 3 week interns' project, 5 weeks spent in Payroll team.
Overall enhanced full stack experience (React, Typescript, AWS, ASP.net), software testing, self-organized time management, introduced industry standard and working in an agile team.

Mentor in Superhack 2019 – A weekend of aiding female high school students to create a robot to solve a problem. Taught me what it is like being in a teaching role; sharing knowledge about my passion excites me.

KFC Team Member - Cashier and packing.
Oct 2013 – Dec 2017 (4 years)
Gained teamwork skills and dealing with stressful situations.

Skills

Proficient: C++, C, Java, C#, Java Script, Typescript, React, SQL, Hasklel, Prolog, Python, Git, OpenGL, Unity3D, UML and Sequence Diagrams.

Basic – Awareness: AWS, Heroku

Databases: Firebase, Microsoft SQL

See projects website for application of skills.

Achievements

1st place in Catalyst 2018 Hackathon $400 prize

Soul Bound - Most fun game in UniJam 2020, a Game Jam competition
